ANVARSHA

MERN Stack Developer | Fresher

Kerala, India 9061318498 anvarshaanvar576@gmail.com

GitHub Profile

PROFESSIONAL SUMMARY

MERN Stack Developer with a Bachelor of Computer Applications degree and hands-on training in full-stack web development. Skilled in JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in developing RESTful APIs, implementing authentication, integrating third-party services, and building responsive web applications. Practicing Data Structures and Algorithms using JavaScript to strengthen problem-solving and programming skills. Eager to learn, collaborate, and contribute to real-world software development projects.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, SQL

Frontend: HTML5, CSS3, React.js, Redux, React Router, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, Middleware, JWT Authentication, Session Management

Databases: MongoDB, Mongoose, PostgreSQL

Data Structures and Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Hash Tables, Recursion, Searching, Sorting, Binary Search, Trees, Tries, Graphs, Heaps

Tools and Technologies: Git, GitHub, Postman, VS Code, Redis

Integrations and Deployment: Razorpay, Cloudinary, Nodemailer, AWS EC2, PM2, Nginx, SSL

PROJECT EXPERIENCE

Giftora – E-commerce Platform *MERN Stack*

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented product and category management, shopping cart, wishlist, coupon functionality, and order management.
- Integrated Razorpay payment gateway and Cloudinary for image uploads and management.
- Implemented authentication, RESTful APIs, and backend business logic.
- Deployed the application on AWS EC2 using PM2 and Nginx with SSL configuration.

Student Daily Tracker *React, TypeScript, Node.js*

- Developed a student productivity application to manage study sessions, track study time, and monitor daily progress.
- Built authentication using JWT and HTTP-only cookies with a Node.js and Express backend.
- Implemented study session management, statistics, and a focus timer with timestamp-based timer logic.
- Used MongoDB, Mongoose, React Router, TanStack Query, and Axios.

HireD – Logistics Management Platform *Team Project*

- Contributing to backend development and database design for a logistics management platform.
- Working with PostgreSQL, relational database schemas, constraints, and database documentation.
- Contributing to REST API development and API documentation.

EDUCATION

Bachelor of Computer Applications (BCA) (one subject pending)
Mahatma University, Kerala

TECHNICAL TRAINING

MERN Stack Development Training – Brototype

- Hands-on learning in frontend development, backend development, database management, and full-stack application development.
- Practical experience with JavaScript, React.js, Node.js, Express.js, MongoDB, TypeScript, and PostgreSQL.

ADDITIONAL STRENGTHS

- Problem-solving and logical thinking through regular Data Structures and Algorithms practice.
- Familiar with Git-based version control and collaborative development.
- Interested in learning new technologies and contributing to real-world projects.
